BCATS

Biomedical Computation @ Stanford 2000

Saturday
October 28, 2000
Stanford University

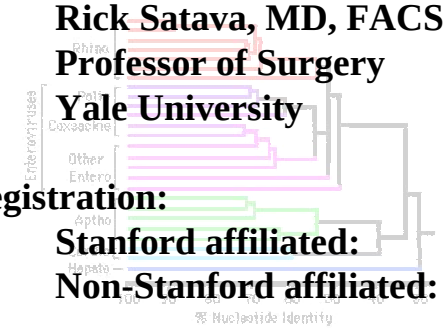
The BCATS 2000 Symposium provides a open, interdisciplinary forum for Stanford students and post-docs to disseminate and share their latest work in:

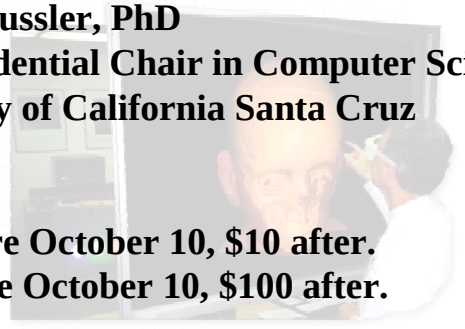
- **Informatics, Data Modeling and Statistics**
- **Biomechanical Simulation and Modeling**
- **Structural Biology and Genetics**
- **Biomedical Image Acquisition and Processing**
- **Computer Assisted Interventions and Robotics**
- **Network and Computing Technology in Education**

Keynote speakers:

Rick Satava, MD, FACS
Professor of Surgery
Yale University

David Haussler, PhD
UC Presidential Chair in Computer Science
University of California Santa Cruz





Registration:

Stanford affiliated: **free before October 10, $10 after.**
Non-Stanford affiliated: **$50 before October 10, $100 after.**

Call for Abstracts:

Currently accepting abstract submissions from Stanford students and post-docs in 2 categories: Scientific Talks and Poster Session / Software Demonstrations.
